

'...a stunning amount of data packed into every page.'

'Commercial Horticulture' (New Zealand) - February 2003

'...A great many catalogues have been published by European tree nurseries...

however, this Dutch company leads the pack

because their book was published entirely in French. This is extremely exceptional for a foreign work...'

'Lien Horticole' (France) - number 7 2003

'These expert descriptions of 800 (avenue) tree species make Van den Berk on Trees the most complete work in this field that I have ever seen.'

'De Boomwijzer' (Netherlands) - number 1 2003

'The book is an exceptional reference work, the like of which has never before been seen in the tree-growing sector.'

'Der Gartenbau' (Switzerland) - 6 February 2003

'Once in a very long while, a completely new book is written that is packed with new information. If this new information is also attractively packaged, with a clear design

and beautiful and effective photos, professional horticulturists can be

nothing other than enthusiastic. The latest tree book published by Van den Berk Nurseries is a prime example.'

'Groencontact' (Belgium) - number 3 2003

A substantial work

We are enormously proud of this book. And, fortunately, the critics have not been modest with their praise. We worked on the book for more than four years, and a great deal of field work was required in order to organise all the properties of the trees in a clear and practical manner. Our eventual spectacular success involved more than 1400 full-colour photos and specialist, practical texts. It is a practical, inspiring and factually essential reference work.

Knowledge sharing

With this book, we wish to communicate, deepen and broaden knowledge and experience on and with trees. The lay-out of this book and the use of photos, language, colour and symbols make it a must for every professional involved in nature and horticulture and highly recommended for enthusiasts. Is it part of your collection? Order it today and you will soon be the proud owner of the European standard work on trees!

Ordering

'Van den Berk on Trees' costs € 85, excluding shipping and packaging costs, and can be ordered from Van den Berk Boomkwekerijen, P.O. Box 130, 5490 AC Sint-Oedenrode (Netherlands), tel: +31 (0)413 480 480, fax: +31 (0) 413 480 490, Internet: www.vdberk.com, e-mail info@vdberk.nl.

Naturally, you can also use the answer coupon in this Tree Book.
