from Van den Berk Nurseries

From 256 to 280 hectares

Van den Berk Nurseries is developing in leaps and bounds. During the last season, the nursery has grown by no less than 24 hectares to approximately 280 hectares. A significant expansion, which enables the company to supply the high quality that the market demands even more efficiently.

Working on the workshop

Van den Berk Nurseries is growing vigorously. In addition to a significant expansion of the nursery and the warehouse (read all about it on page 9), the workshop has also been upgraded. A radical renovation has almost doubled its size.

This will enable Van den Berk Nurseries to continue to respond to the latest technical developments in the future and will give the engineers the space to continue expanding the fleet of machinery.

Furthermore, the new workshop, with its liquid-tight floor, gantry crane and lathe provides the space required for the maintenance of the fleet of vehicles and machinery.
