

Populus xcanescens 'Honthorpa'

Height	20-25 m
Width	15-20m
Crown	narrow conical, half-open crown
Bark and branches	grey
Leaf	green
Flowers	grey, flowers in March
Fruits	fruitless cultivar
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, acid soil, calcareous soil
Soil moisture	suitable for wet soil
Paving	tolerates paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
Application	coastal areas

The trunk grows more or less straight and forms a narrow pyramidal crown when young. At a later stage it becomes broader. The bark is grey. The dark green leaves are triangular to ovoid and have a grey underside. They are lobed and turn yellowish-green in the autumn. 'Honthorpa' is little sensitive to rust but is certainly sensitive to canker. Can be used in landscapes and for row planting and as a solitary in parks and public gardens. It shows good resistance to wind. Winter hardiness zone: 5a
