

## Prunus 'Okame'

|                              |                                                                |
|------------------------------|----------------------------------------------------------------|
| <b>Height</b>                | 3-5 (6) m                                                      |
| <b>Width</b>                 | 3-5m                                                           |
| <b>Crown</b>                 | oval, dark, dense crown                                        |
| <b>Bark and branches</b>     | brown, grey                                                    |
| <b>Leaf</b>                  | green, bronze                                                  |
| <b>Autumn colour</b>         | orange, red                                                    |
| <b>Flowers</b>               | reddish pink, flowers in March                                 |
| <b>Fruits</b>                | fruitless cultivar                                             |
| <b>Spines/thorns</b>         | None                                                           |
| <b>Toxicity</b>              | usually not toxic to people, (large) pets and livestock        |
| <b>Soil type</b>             | clayed soil, loamy soil, sandy soil, calcareous soil           |
| <b>Paving</b>                | tolerates no paving                                            |
| <b>Winter hardiness zone</b> | 6a (-23,3 to -20,6 °C)                                         |
| <b>Wind resistance</b>       | moderate                                                       |
| <b>Other resistances</b>     | resistant to frost (WH 1 - 6)                                  |
| <b>Fauna tree</b>            | resistant to frost (WH 1 - 6), valuable for bees (honey plant) |
| <b>Application</b>           | small gardens, patio gardens                                   |
| <b>Shape</b>                 | clearstem tree, feathered tree, multi-stem tree                |

A bushy shrub that remains small and is sometimes cultivated on a stem. It then forms a narrow oval crown. Height 3 - 5 (6) m. The small narrow leaves have a sharply serrated edge and grow to 7 - 8 cm in size. They emerge with a bronze colour that later turns green. They become orange with red tints in the autumn. The tree produces many carmine-pink flowers from late March to mid-April. The flowers are in twos and threes and are single. They are approximately 2 - 2.5 cm in diameter. An ornamental Prunus for private and public gardens. This is a tree for a sunny sheltered site. Winter hardiness zone: 6a
