

Sorbus folgneri 'Emiel'

Height	10 m
Width	4-5m
Crown	round, half-open crown
Bark and branches	young twigs grey-white felt-like hair, later brown, bark grey-brown, smooth
Leaf	narrow ovate to elongated, 5 to 10 cm, glossy dark green
Autumn colour	orange, red
Flowers	white. Ø approx. 1 cm, in approx. 10 cm-wide corymbs, May
Fruits	red, oval
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	few requirements, well-drained soil
Paving	tolerates no paving
Winter hardiness zone	6a (-23,3 to -20,6 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	avenues and broad streets
Shape	clearstem tree, multi-stem tree

Elegant medium-size tree with round crown shaped by gracefully pendulous branches. Grows to approx. 10 m tall and wide. The young twigs have thick grey-white felt-like hair. The hair disappears later leaving brown branches. Old bark is grey-brown and smooth. The simple leaves are narrow ovate to elongated and taper to a point at the base and tip. On emerging the leaf has grey-white felt-like hair like the young twigs. The mature leaf is glossy dark green and turns deep orange-red in autumn. In May the approx. 1 cm white flowers open in 10 cm corymbs. They are followed by oval, red fruits. Graceful, healthy tree for parks and wide green borders.
