

Ginkgo biloba 'Princeton Sentry'

Height	15-20 m
Width	6-8m
Crown	narrow conical, light, open crown
Bark and branches	brown, grey
Leaf	green
Autumn colour	yellow
Flowers	green, flowers in April
Fruits	fruitless cultivar
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, peaty soil, all soil types
Paving	tolerates paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	fairly to good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Application	avenues and broad streets, tree containers, roof gardens, industrial areas
Shape	clearstem tree, feathered tree, clearstem conifer, specimen conifer

A narrow, column-shaped selection that broadens later. The main stem grows remarkably straight and branches grow in a uniform, open pattern. The branches slant upwards slightly. Height 15 - 20 m, width to approx. 6 m. Slow-growing, particularly when young. The fan-shaped leaves and flower buds are on short shoots. The leaves grow in bundles of 3 - 5 together and have an incised top. The autumn colour is golden yellow. 'Princeton Sentry' is a male type that is excellently suited as a street tree, thanks to its lack of fruit. It is also suitable for small gardens. Requires a site with ample light. Winter hardiness zone: 5a
