

Acer campestre 'Carnival'

Height	2-3 m, slow growing
Width	2-3m
Crown	round/spherical, dark, dense crown
Bark and branches	brown, grey
Leaf	variegated, off white/ green, red
Autumn colour	yellow
Flowers	yellowgreen, flowers in May
Fruits	redgreen, inconspicuous
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, peaty soil, all soil types
Paving	tolerates partial paving
Winter hardiness zone	5a (-28,8 to -26,1 °C)
Wind resistance	good/very good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt, valuable for butterflies
Application	tree containers, roof gardens, coastal areas, small gardens, patio gardens
Shape	clearstem tree

Small tree about 5 m tall when grafted onto standard tree. The crown is bulbous, compact and densely branching. The leaves are dark green with broad, cream-coloured edges. The young shoots are reddish and contrast well with the variegated leaf. The variegated leaf is rather sensitive to sunburn during hot, sunny periods in the summer. Thanks to its small size and compact crown, 'Carnival' is very suitable for use in narrow streets, on squares and in smaller gardens. Does not grow well enclosed by paved surfaces.
