

## Fagus sylvatica 'Latifolia'

|                       |                                                         |
|-----------------------|---------------------------------------------------------|
| Height                | 25-30 m                                                 |
| Width                 | 20-25m                                                  |
| Crown                 | round/spherical, dark, dense crown                      |
| Bark and branches     | grey                                                    |
| Leaf                  | green                                                   |
| Autumn colour         | yellow, orange                                          |
| Flowers               | yellowgreen, flowers in May                             |
| Fruits                | brown                                                   |
| Spines/thorns         | None                                                    |
| Toxicity              | usually not toxic to people, (large) pets and livestock |
| Soil type             | loamy soil, sandy soil, peaty soil, calcareous soil     |
| Paving                | tolerates no paving                                     |
| Winter hardiness zone | 5b (-26,0 to -23,4 °C)                                  |
| Wind resistance       | moderate                                                |
| Other resistances     | resistant to frost (WH 1 - 6)                           |
| Application           | avenues and broad streets                               |
| Shape                 | clearstem tree, feathered tree                          |
