

Fraxinus excelsior 'Pendula'

Height	8-10 m
Width	6-8m
Crown	broad weeping, half-open crown, capricious growing
Bark and branches	brown, grey
Leaf	green, brownish green, feathered leaf
Autumn colour	yellow
Flowers	none
Fruits	fruitless cultivar
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, calcareous soil
Soil moisture	suitable for wet soil, withstand short flood
Paving	tolerates no paving
Winter hardiness zone	4 (-34,4 to -28,9 °C)
Wind resistance	good
Other resistances	resistant to frost (WH 1 - 6), can withstand wind, resistant to de-icing salt
Application	tree containers, roof gardens, coastal areas, industrial areas
Shape	clearstem tree

A vigorous grower, often used as a summerhouse tree. It attains a height of 8 - 10 m and it gets a nice weeping look due to its wide arching pendulous branches. The bark is grey brown and regularly, shallowly furrowed. The dark-green compound leaf is odd-pinnate and can become 15 - 20 cm large. When unfolding the leaf is green brown and the autumn colour is yellow. 'Pendula' does not have flowers and fruits and is used as a park tree and solitary in gardens and public gardens. The tree prefers nutritive, moist soil. Winter hardiness zone: 4
