

Hamamelis xintermedia 'Ruby Glow'

Height	4-5 m
Width	4-5m
Crown	broad vase-shaped, dark, dense crown, capricious growing
Bark and branches	brown
Leaf	green
Autumn colour	yellow, red
Flowers	purple, brownred, flowers in January
Fruits	brown
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	loamy soil, sandy soil, peaty soil, acid soil
Paving	tolerates no paving
Winter hardiness zone	6b (-20,5 to -17,8 °C)
Wind resistance	moderate
Other resistances	resistant to frost (WH 1 - 6)
Application	tree containers, small gardens, patio gardens
Shape	clearstem tree, multi-stem treem

Bushy, sturdy shrub to small tree about 3 m high and 4 m broad, with a broad, fan-shaped, densely branching crown. The plant naturally forms an attractive, regular crown. The somewhat glossy, dark green leaf turns yellow to light red in autumn. The flowers, measuring about 3.5 cm, open around January/February. The flowers are brownish red with purple hue and have no fragrance. The flowers are somewhat lighter than in 'Diane', and the tree does not blossom as profusely every year. When the newly named cultivars of *H. x intermedia* were introduced after WW2, 'Ruby Glow' was the first red-blossoming one.
