

Malus domestica 'Starkrimson Delicious'

Height	6-8 m
Width	6-8m
Crown	round/spherical, half-open crown
Bark and branches	brown
Leaf	green
Flowers	white, pink, flowers in April
Fruits	edible fruits, red
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clayed soil, loamy soil, sandy soil, acid soil
Paving	tolerates no paving
Winter hardiness zone	6 (-23,3 to -17,8 °C)
Wind resistance	good, susceptible to sea wind
Other resistances	resistant to frost (WH 1 - 6), can withstand wind
Fauna tree	resistant to frost (WH 1 - 6), can withstand wind, provides food for birds
Application	small gardens, patio gardens
Shape	clearstem tree, clearstem fruit tree, halfstem fruit tree, espalier fruit tree

'Starkrimson Delicious' is a medium-sized apple tree that grows moderately fast. The almost round crown is semi-open and will grow 6-8 m tall. Flowers open around the end of April. White-pink flower buds open from pink buds. The apples are ready for picking very late in the season and can be picked from mid-October onwards. They are medium-sized and distinctly broad-lanceolate and slightly irregular in shape. The apples are shiny deep red. The flesh is firm, juicy and sweet-smelling. The flavour is also sweet. 'Starkrimson Delicious' can be used as a hand apple and as a kitchen apple (dessert apple). The apples can be stored for about four months. Good for use in private gardens. Hardiness zone 6.
