

Prunus ×subhirtella 'Autumnalis'

Height	6-8 m
Crown	vase-shaped, half-open crown
Bark and branches	brown, grey
Leaf	green
Autumn colour	yellow, orange
Flowers	light pink, flowers in October
Fruits	black, seldom
Spines/thorns	None
Toxicity	usually not toxic to people, (large) pets and livestock
Soil type	clay soil, loamy soil, sandy soil, calcareous soil
Paving	tolerates no paving
Winter hardiness zone	5b (-26,0 to -23,4 °C)
Wind resistance	fairly
Other resistances	resistant to frost (WH 1 - 6)
Fauna tree	resistant to frost (WH 1 - 6), valuable for bees (honey plant)
Application	avenues and broad streets, parks, squares, cemeteries, large gardens, small gardens
Shape	clearstem tree, multi-stem treem

Prunus subhirtella 'Autumnalis' is a densely branched large shrub or medium-sized tree with sloping and slightly arching branches. The tree has a broad vase-shaped crown. Height 6 - 8 m. The leaves unfurl green and have a yellow to orange-yellow autumn colour. Flowering repeats from November to the end of April, except during periods of frost. The semi-double flowers are very light pink (almost white), the buds darker. Due to the long flowering period, the plant does not flower richly at one time. 'Autumnalis' is used as a park tree. Hardiness zone: 5b
